PERSONAL QUALITIES

- Responsibility
- Communication skills
- Ability to learn quickly
- Analytical mindset
- Ability to work in a team.

ABOUT ME

I'm a full stack developer with over 2 years of experience working with various technologies and platforms, including game server development, creation of multifunctional bots and web applications. My main achievement is the development and support of my own game server on RAGEMP for GTA V, where I supervise a team of developers. I also have freelance experience, where I developed bots for various platforms, created websites, and worked with game cheats. I am always open to new technologies, love solving complex technical problems, and strive to develop my skills in the field of artificial intelligence.

EXPERIENCE

June 2021 - December 2021
Kiev
Freelance developer

- Development of multifunctional bots for Discord, Telegram, and Viber.
- Development and maintenance of websites for various clients.
- Creation of scripts and programs for games (including cheats).
